To: Prequalified Asphalt Contractors

From: Karen B. Macdonald, PE 
Prequalification Engineer
Indiana Department of Transportation (INDOT)

Re: Prequalification Work Types B(A) and E(B)

In reviewing applications last month, INDOT's Prequalification Section came across several contractors that previously had work type B(A) Bituminous Paving, Plant Mix but were not listed as Certified HMA Producers on the INDOT Office of Materials Management's list. If you are receiving this memo, your company falls in this category. For asphalt contractors not on the certified list, we have replaced B(A) with work type E(B) Bituminous Plant Mix, Placing.

If you have work type E(B), you can bid B(A) contracts by providing a copy of an agreement with a certified HMA producer to INDOT prior to your bid. You must submit the agreement to the Prequalification Section or Contract Administration's Customer Service Section at the above listed address before your company can be listed on the Bidder's list.

An HMA producer achieves certified status by complying with Indiana Test Method (ITM) 583. The mix producer can submit a request to enter the program to the Office of Materials Management (OMM) Manager, Ron Walker, at 120 S. Shortridge Road, Indianapolis, IN 46219. OMM's phone number is (317) 610-7251. The producer must develop a quality control plan and submit it for review and acceptance.

If you have any questions, please contact Fred Bartlett at 317-232-8364 or fbartlett@indot.in.gov.
